DATA STRATEGIST & AI-FOCUSED ANALYST

DATA SCIENTIST WITH STRATEGIC IMPACT

Bowen blends technical mastery with an instinct for uncovering nuanced business insights. At OSLA, he supports law firm strategy by extracting key patterns from financial, operational, and performance data—illuminating growth opportunities that often go overlooked. His analytical fluency spans profitability modeling, compensation optimization, and benchmarking, helping clients make data-informed decisions.

AI-POWERED PRODUCTIVITY DESIGNER

Recognized for building tools that replace manual tasks, Bowen uses artificial intelligence to enhance strategic planning and simplify due diligence. His attorney compensation models use predictive algorithms to assess metrics like revenue origination, billable hours, and team collaboration—helping firms link performance with meaningful incentives. Through proprietary adaptive GPT capabilities, Bowen streamlines documentation, delivering faster intelligence, more consistent outputs, and reduced risk for OSLA’s clients.

CROSS-INDUSTRY PERSPECTIVE

Bowen’s career began in the pharmaceutical sector, where he developed data solutions that streamlined clinical operations, improved efficiency, and reduced costs. His success in building predictive dashboards and automation tools reflects a talent for translating complex data into strategic outcomes—expertise he now brings to OSLA clients. Bowen holds a Master of Science in Business Intelligence and Analytics from Stevens Institute of Technology and an Industrial Engineering degree from Tianjin University.
